

Amendments to the Claims

This listing of claims will replace all prior versions and listings of claims in the above-identified application.

Listing of Claims

1. (Previously Presented) A method comprising:
forming a tungsten plug in a dielectric layer;
forming an electrically conductive interconnect line on the dielectric layer after formation of the tungsten plug, wherein the tungsten plug is electrically connected to the electrically conductive interconnect line;
contacting the electrically conductive interconnect line with liquid water after formation of the electrically conductive interconnect line;
contacting the electrically conductive interconnect line with a solution to remove residual polymer after the electrically conductive interconnect line is contacted with the liquid water;
wherein the electrically conductive interconnect line is contacted with the liquid water for less than 120 minutes.
2. (Previously Presented) The method of claim 1 wherein the liquid water is degasified and deionized.
3. (Previously Presented) The method of claim 1 wherein the liquid water is deionized but not degasified.
4. (Previously Presented) The method of claim 1 wherein the liquid water is degasified but not deionized.
5. (Previously Presented) The method of claim 1 wherein the liquid water is neither degasified nor deionized.

6. (Previously Presented) The method of claim 1 wherein the liquid water has a pH that is at or near neutral.
7. (Previously Presented) The method of claim 1 wherein the electrically conductive interconnect line is contacted with the liquid water for less than 60 minutes.
8. (Previously Presented) The method of claim 1 wherein the electrically conductive interconnect line is contacted with the liquid water for less than 15 minutes.
9. (Original) The method of claim 1 wherein the electrically conductive interconnect line is formed from a metal stack that includes one or more of titanium, titanium nitride, aluminum, an aluminum copper alloy, and an aluminum silicon copper alloy.
10. - 26. (Canceled).
